*Following an extremely challenging phase in my life, I decided to arrange a special, empowering boudoir photo shoot to rediscover my own sense of attractiveness. My expectations were quite high, and thankfully, Peter, the professional behind the lens, didn't let me down at all. His approach was such that it instilled a sense of comfort in me throughout the session. I can't*

It's important you find someone whose work you LOVE, but it's just as important you find someone who will bring out the best of who you are in your photos. After all, your boudoir shoot is meant to be an amazing celebration of yourself.

You probably want a photographer who is fun and makes you feel relaxed.

At Boudoir Fusion we're lovers of empowering women, dreamers, artists, and we're also slightly addicted to coffee.

Given enough coffee, we can get lost in a shoot for hours.

We hope this guide gives you an idea of our style, and who we are! We're so thrilled you're considering us for your boudoir photo shoot.

This day is precious and intimate, and we understand it has probably taken you some time to choose just the right photographer to capture your special moments.

## WHAT MAKES US UNIQUE?

Finding the right professional boudoir photographer can be difficult and sometimes intimidating. Start by finding a professional photographer that you feel comfortable with, who is able to not only create an image, but a happy experience that makes you go WOW.

We have created a studio dedicated to our art, a fairy-tale land with several dedicated, ever expanding sets. There's a reception area, private changing areas, showers, outfits, and props from whips to wings. We have everything you need in one place.

Boudoir photography has become our passion, and so much more than just a job. Beyond just taking a picture, every woman has a story to tell and we want to capture that intimate story.

but an experience.'*

# Editing Post Production

When it comes to photo editing, the possibilities are vast, ranging from straightforward enhancements to intricate transformations. You might have come across terms like Photoshopping, retouching, or airbrushing, which all refer to the art of editing images. Our primary objective is to provide you with stunning, magazine-quality photos by applying various adjustments. Moreover, the professional application of makeup and the skillful use of lighting can significantly elevate the quality of your images.

Depending on our current workload, the photo editing process typically takes approximately 14 to 21 working days. However, if you require expedited delivery, we offer a Rush Job on Edits service for an additional fee. More details can be found in the pricing section.

It's important to note that certain modifications, such as removing tan lines, veins, or natural bend lines, can alter your appearance. Therefore, each requested alteration and any subsequent revisions will incur an extra charge in addition to the prices listed below. Additionally, correcting the artificial orange tint often associated with spray tans can be particularly challenging. Consequently, we advise steering clear of most spray tans to ensure optimal color correction and overall image quality.

## STANDARD EDITS

- + Reduce wrinkles, this is not always required.
- + Remove spots, pimples and bruises as well as other selected blemishes.
- + Some women hate their stretchmarks, these will be reduced.
- + Cellulite is reduced.
- + Basic skin softening will be applied.
- + Nipping and tucking and can even make you look slightly slimmer.
- + Dodging and Burning, which is where we make the image stand out more, almost giving it a 3 dimensional look.
- + You will receive all of your chose files web ready, these will be able to be viewed on a full PC screen without loss of detail. Full print images will be available for purchase.

# Nudity

Our Definition

When Michelangelo and Botticelli painted beautiful images of woman and men naked, they were not generally frowned upon by society, but rather celebrated for the beauty they created. I find it sad that in this day and age so many people appear to be so adverse to nudity. There may be a fine line between porn and nude, but to my photographic eye there is a huge difference, porn tends to be very much in your face, with no mystery and is about sex. Nude photography is generally considered a genre of art photography depicting the nude human body, it is more subtle and alluring, playing with shadows and using softer colours so that one admires the naked form, rather than lusting after it.

Many of our clients request nude/erotic or adult photographs, but are unsure what to expect. These are our interpretations of these forms of photography.

**Implied Nude:** Similar to FHM magazine. The title expresses exactly what this form of photography is, it implies that you are not wearing any clothing but no “naughty bits” are showing. Sometimes less is more when nudes are being shot and implied nudes can be considered as being very tasteful and not obscene. Sometimes your buttocks will be shown.

**Semi-nude:** Similar to Playboy magazine. This is where your breasts and bum are showing, your other “naughty bits” will be covered or just covered by clothing or shadowed.

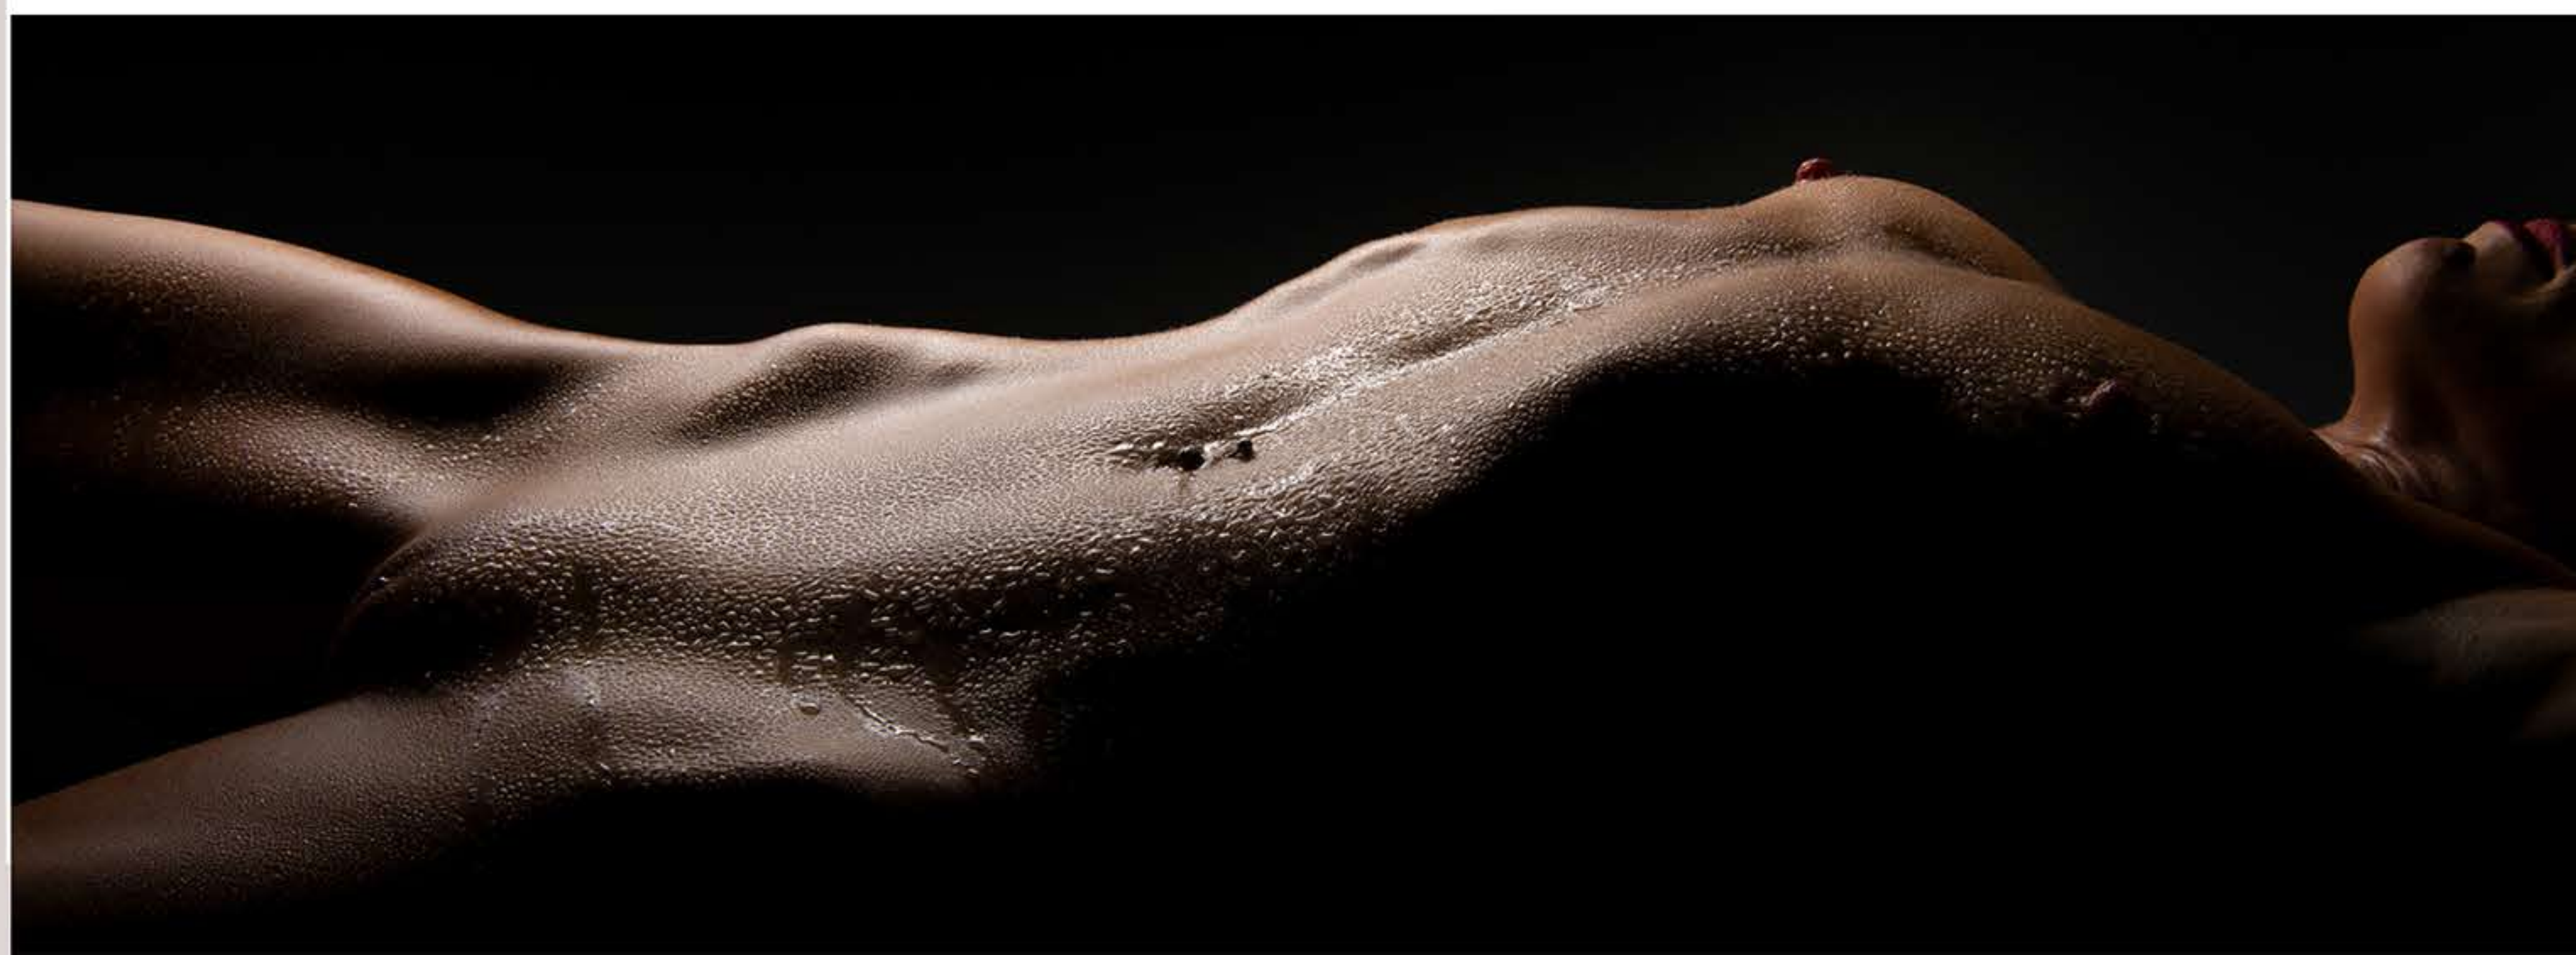

**Full Nude:** Again, similar to Playboy magazine and art galleries. This is where your entire body will be photographed naked, the images will all be tastefully shot, we will strive to show you in the best light possible.

**Artistic Nude:** Found in art galleries. These images are posed in an interesting manner and artfully lit with parts of your body heavily shaded.

**Erotic Nude:** Provocative expressions are used and particular attention is drawn to your “naughty bits”, this form of photography has a sexually suggestive component, and often stretches the imagination.

**Adult Nude:** Similar to Hustler magazine. Sexually explicit poses are used, often engaging or suggesting that you are about to engage in a sexual act, these images can also be pornographic in nature.

Although many of our clients will not even consider going naked, for those of you that do, the above is a rough guideline for you to follow to enable us to know exactly what you are wanting to achieve so we can best deliver and meet with your expectations and design a private and personalised photographic experience, giving you the images that you want.

# Adult Images

Yes, we will photograph

Please note that we do take adult images (porn) for those that request it, for whatever your reason, without judgement.

We do not share our Adult gallery, as it is not everyone's 'cup of tea'. This gallery is only available to you during a pre-meeting, in person at the studio.

Our clients need to approach us directly for a shoot of this nature, it is not a shoot to be taken lightly, it is not a shoot we will directly suggest. We will require a pre-meeting for shoots of this nature to discuss exactly what it is you would like photographed. We will photograph anything as long as it does not put us in hospital or jail. Although our definitions are not precise, here are a few examples as we see them.

## A guide to photographing Nude and Erotic BodyScapes

# Questions that are *Frequently asked*

This is not your everyday family portrait shoot and is something very different to what you would do every day! For many, this is a once in a lifetime experience and with that, many questions could come to mind.

The following frequently asked question list will hopefully cover many of the questions that you may have from wardrobe selection to what to do on a boudoir photography shoot to selecting your final product.

## What is boudoir photography?

The beauty industry is thriving, as we love to pamper ourselves and spend an enormous amount of time and money in doing so be it purchasing the latest beauty products, fashion accessories, a new hair style, manicure, pedicures, fitness and even plastic surgery all to make us feel beautiful.

Boudoir photography is a lifelong investment in yourself as we will document and capture your beauty to treasure for a lifetime.

We are not interested in your body type or age as boudoir photography is for all shapes and sizes , our goal is to offer all women the incredible opportunity to commission their own collection of stunning and modern boudoir photography images. We will bring out and concentrate on your best features and provide you with something truly unique to show you how beautiful you are.

Our sessions are designed around your personality to give as a gift to yourself, or as a romantic gift to your partner, these sessions are designed with you in mind.

# Questions that are *Frequently asked*

## **I am uncomfortable with nudity, what now?**

How much you take off or leave on is purely up to your comfort levels, we have some clients that are really comfortable with their bodies and nudity and actually request a nude shoot, while others are a little more reserved. The choice can be left up to how comfortable you feel on the day. No always means no, so if we suggest anything you feel uncomfortable with tell us, this shoot is about you and your comfort levels. If you are uncomfortable that will translate to the final images and that is not the goal. Sexy is not always about how much you show but how you show it.

## **I am extremely nervous, what now?**

Don't panic, it's a natural feeling, even some professional models have admitted that they have been nervous before a boudoir shoot. We will guide you through the entire process from telling you how to pose, when to smile or just give us that sexy look. We show you how to get that sultry look and what to do with your head and hands, your goal is just to look fabulous. We know which angles to capture all body types to accentuate your beauty. We design our packages to allow you plenty of time to relax and feel comfortable, as already stated, this shows in the final images. So leave everything to us and relax and enjoy your experience.

## **Do you provide hair and makeup services?**

We have a makeup artist that will do your makeup before the shoot This process usually takes between 45 - 60mins. We would like to recommend that you have your hair done prior to your selected boudoir photography session but can, this service can be added to your shoot.

# Questions that are *Frequently asked*

## **What should I bring to my boudoir photography shoot and can you assist with my wardrobe?**

We have a small selection of corsets, stockings, shoes and lingerie, these are available for hire. We would recommend that you bring a variety of lingerie, jewellery and shoes with killer heels to the pre meeting so that we can best match it to the sets and boudoir shoot you decide upon.

Here are some recommendations as what to pack:

- + bra and panty sets, teddy, a corset, garters, chemise, camisole, thigh high stockings and robes.
- + Black is often seen as the standard in sexy, but don't forget that all colours are great and may give you a pleasant variety of looks to your final images.
- + Brides why don't you bring your favourite white lingerie or better yet, the lingerie you plan to wear on your wedding day, we do have a veil and white garters but again, if you prefer to.
- + a variety of high heels and high boots,
- + a personal item of your significant other
- + jewellery; particularly that favourite piece of yours
- + hats, scarves, ties.
- + Some of our clients have brought a piece of their partner's favourite clothing or sporting equipment, have a look through our galleries for inspiration.

## **When do I get to see my images and when will they be ready?**

You will get to see your images immediately after your shoot, the edits will then take between 14 – 21 working days to get your images back to you. Products depending on the season can take longer.

## **How many images can I choose and how many will you take on a session?**

We take a number of images during your shoot, it all depends on the package you choose as to how many we will take and how many we edit, please visit our website for full details on the above. We will endeavour to keep your images for several years so if, at a later date you require additional images we can usually assist you with your request. For any of our packages you are able to take additional edits.

# Questions that are *Frequently* asked

## **Will my images be shown on your website or social media?**

We will only show images on our website, social media and blog if we get a full signed modelling release from you, so you can be rest assured, if you want to keep the shoot totally private we will not publicise any of our images. Your images will only be seen by our photographer, stylist and editor. We fully respect and understand the privacy of our clients.

## **I'd love to give a boudoir photography session as a gift. How do I go about doing that?**

Visit our website to choose the package that you would like to gift and either call us or drop us an email to let us know. We will prepare a voucher, custom designed, with your details as well as the details of the person to whom you are giving the gift.

If you still have any further questions that have not been answered above, please do not hesitate to call us to speak with us directly. We will be happy to help you.

If you have read this far, you are probably really serious about doing a shoot, we think that Boudoir Fusion Photography can offer you what you are looking for and look forward to seeing you soon.
